Lic. # 197408562

At Amazing Learners' Academy children are guided and encouraged to use their natural thinking skills in solving daily challenges that they encounter while interacting with others, playing on their own, or exploring their surroundings. At a very young age, children are able to make simple predictions, reach for objects by overcoming simple obstacles, and figure out order of events.

Miss Reyna makes sure children put into practice these lifelong skills on a daily basis. Overall, she supports thinking by asking open ended questions during activities, so that children have the opportunity to choose a specific answer, rather than a simple yes or no reply.

Children are encouraged to have a plan for building, creating, and designing their projects and to reflect on accuracy based on their expected outcomes. Just as parents do, Miss Reyna wants to offer positive experiences towards children's success in learning, by making sure that children are understanding concepts rather than just memorizing information.

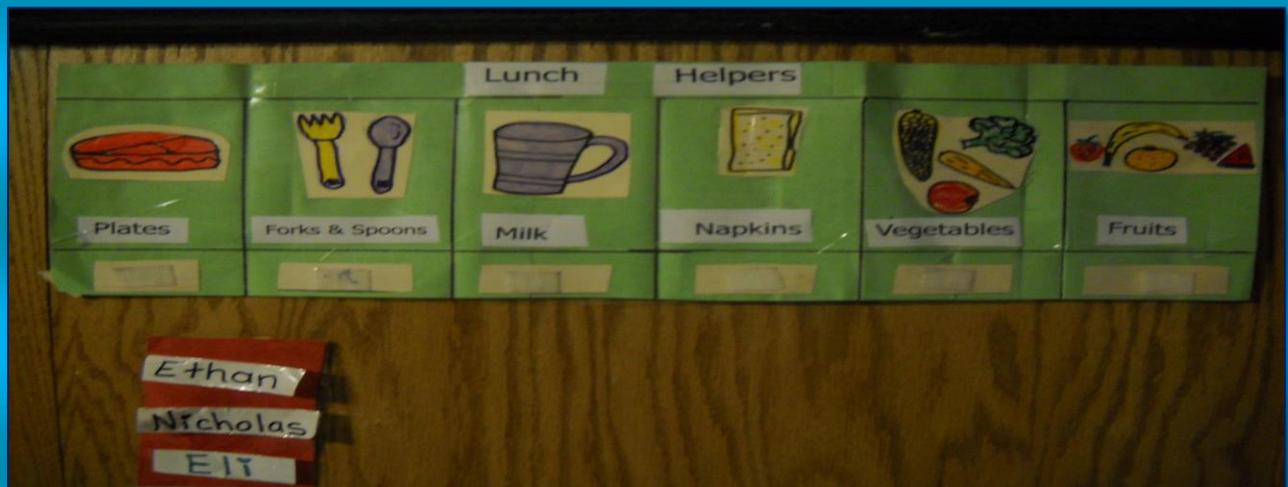

## Qualifications

Mrs. Reyna Simplicio is highly qualified to implement preschool curriculum. She holds a **Preschool Teaching Certificate** from the California Commission on Teacher Credentialing, and an **Elementary School Teacher's Diploma** from Zacatecas, Mexico's prestigious Normal Manuel Avila Camacho teaching school. She has over 30 years of experience working with young children at Sunshine Day Camp, Child Care Valencia, and at her Simplicio Child Care Home. She is **CPR trained** and a **Board Member to the SCV Family Child Care Association**.

## Nutrition

As a participant of a state funded **Child Care Food Program**, your children are provided with nutritious, fresh prepared meals, while in care, at no extra cost. During meal times, learning continues. Children are active participants by helping to set the table, serving their own foods, using table etiquette. They socialize, learn about the nutritional value of foods, analyze colors, flavors, textures, and temperatures. They are encouraged to count and compare amounts, make simple math calculations, and much more!
